- ☒ Rule 13p-1 under the Securities Exchange Act (17 CFR 240.13p-1) for the reporting period from January 1 to December 31, 2013.

Section 1 – Conflict Minerals Disclosure

Item 1.01 Conflict Minerals Disclosure and Report

Conflict Minerals Disclosure

Anheuser-Busch InBev SA/NV (together with its consolidated subsidiaries, “AB InBev”, “Company”, “we” or “our”) hereby files this Form SD pursuant to Rule 13p-1 under the Securities Exchange Act of 1934. Please refer to Rule 13p-1, Form SD and the 1934 Act Release No. 34-67716 for definitions to the terms used in this Report, unless otherwise defined herein. A copy of this Form SD is also posted to the Company’s website at: http://www.ab-inbev.com/go/investors/reports_and_publications/sec_filings.cfm.

AB InBev has determined that it manufactures only one product employing necessary conflict minerals within the scope of Form SD. The product in question is a line of glass bottles manufactured by AB InBev’s Mexican subsidiary that utilize the coating Certincoat® TC100, which contains the conflict mineral tin necessary for its functionality. AB InBev is supplied Certincoat® TC100 by a single supplier.

Reasonable Country of Origin Inquiry

AB InBev provided a detailed questionnaire to its supplier of Certincoat® TC100 to ascertain its diligence processes in sourcing the conflict mineral tin. The supplier provided AB InBev with a completed Electronic Industry Citizenship Coalition and Global e-Sustainability Initiative Conflict Minerals Reporting Template (“EICC/GeSI Template”), a template developed in accordance with the Organisation for Economic Co-operation and Development (“OECD”) Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-Risk Areas. In its completed EICC/GeSI Template, the supplier confirmed that it has received completed EICC/GeSI Templates from more than 75% of its suppliers. According to the supplier, all the parties providing replies confirmed that the tin sourced was not from the Democratic Republic of the Congo (“DRC”) or an adjoining country. The replies identified fourteen smelters from which the suppliers obtained tin and there is no indication that any of these smelters sourced tin from the DRC or an adjoining country. AB InBev also received a representation letter confirming that no supplier had indicated that the tin supplied to it originated from the DRC or an adjoining country. The supplier also provided its internal Conflict Minerals Policy signed by its CEO and Deputy General Counsel confirming its commitment to responsible sourcing and its commitment not to acquire conflict minerals from the DRC or an adjoining country.

Based on the documentation it has received from its supplier, AB InBev has no reason to believe that its necessary conflict minerals may have originated in the DRC or an adjoining country.
