Forward looking statements

This presentation includes ‘forward-looking statements’ with respect to certain of SABMiller plc’s plans, current goals and expectations relating to its future financial condition, performance and results. These statements contain the words “anticipate”, “believe”, “intend”, “estimate”, “expect” and words of similar meaning. All statements other than statements of historical facts included in this presentation, including, without limitation, those regarding the Company’s financial position, business strategy, plans and objectives of management for future operations (including development plans and objectives relating to the Company’s products and services) are forward-looking statements. Such forward-looking statements involve known and unknown risks, uncertainties and other important factors that could cause the actual results, performance or achievements of the Company to be materially different from future results, performance or achievements expressed or implied by such forward-looking statements. Such forward-looking statements are based on numerous assumptions regarding the Company’s present and future business strategies and the environment in which the Company will operate in the future. These forward-looking statements speak only as at the date of this document. The Company expressly disclaims any obligation or undertaking to disseminate any updates or revisions to any forward-looking statements contained herein to reflect any change in the Company’s expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based. The past business and financial performance of SABMiller plc is not to be relied on as an indication of its future performance.

All references to “EBITA” in this presentation refer to earnings before interest, tax, amortisation of intangible assets (excluding software) and exceptional items. EBITA also includes the group’s share of associates’ and joint ventures’ EBITA on the same basis. All references to “organic” mean as adjusted to exclude the impact of acquisitions and disposals, while all references to “constant currency” mean as adjusted to exclude the impact of movements in foreign currency exchange rates in the translation of our results. References to “underlying” mean in organic, constant currency.
