Legal Disclaimers

Certain statements contained in this report that are not statements of historical fact constitute forward-looking statements, notwithstanding that such statements are not specifically identified. In addition, certain statements may be contained in the future filings of the Company with the competent securities regulators or other authorities, in press releases, and in oral and written statements made by or with the approval of the Company that are not statements of historical fact and constitute forward-looking statements.

Forward-looking statements are not guarantees of future performance. Rather, they are based on current views and assumptions and involve known and unknown risks, uncertainties and other factors, many of which are outside the Company’s control and are difficult to predict, that may cause actual results or developments to differ materially from any future results or developments expressed or implied by the forward-looking statements. Factors that could cause actual results to differ materially from those contemplated by the forward-looking statements include, among others: (i) local, regional, national and international economic conditions, including the risks of a global recession or a recession in one or more of the Company’s key markets, and the impact they may have on the Company and its customers and its assessment of governmental proceedings; (xx) natural disasters; (xxi) any inability to economically hedge certain risks; (xxii) inadequate impairment provisions and losses on uncollectible accounts; (xxiii) adverse changes in political and regulatory conditions and currency exchange rate volatility, and which may have a substantial impact on the economies of one or more of the Company’s key markets; (iv) changes in governmental policies and fiscal measures; (v) continued availability of financing and the Company’s ability to achieve its targeted coverage and debt levels and terms, including the risk of constraints on financing in the event of a credit rating downgrade; (vi) the monetary and interest rate policies of central banks; (vii) changes in applicable laws, regulations and taxes in jurisdictions in which the Company operates; (viii) limitations on the Company’s ability to contain costs and expenses; (ix) the Company’s expectations with respect to expansion plans, premium growth, accretion to reported earnings, working capital improvements and investment income or cash flow projections; (x) the Company’s ability to continue to introduce competitive new products and services on a timely, cost-effective basis; (xi) the effects of competition and consolidation in the markets in which the Company operates; (xii) changes in consumer spending; (xiii) changes in pricing environments; (xiv) volatility in the prices of raw materials, commodities and energy; (xv) difficulties in maintaining relationships with employees; (xvi) regional or general changes in asset valuations; (xvii) greater than expected costs (including taxes) and expenses; (xviii) the risk of unexpected consequences resulting from acquisitions, joint ventures, strategic alliances, corporate reorganizations or divestiture plans, and the Company’s ability to successfully and cost-effectively implement these transactions and integrate the operations of businesses or other assets it has acquired; (xix) the outcome of pending and future litigation, investigations and governmental proceedings; (xx) natural and other disasters; (xxi) any inability to economically hedge certain risks; (xxii) inadequate impairment provisions and loss reserves; (xxiii) technological changes and threats to cybersecurity; and (xxiv) the Company’s success in managing the risks involved in the foregoing. All subsequent written and oral forward-looking statements attributable to the Company or any person acting on its behalf are expressly qualified in their entirety by the cautionary statements referenced above. Forward-looking statements speak only as of the date on which such statements are made.

In addition, the forward-looking statements contained in this report also include statements relating to the Company’s business combination with SABMiller plc (the “Transaction”), the related divestitures and the financing of the Transaction, including the expected effects of the Transaction on the Company. All statements regarding the Transaction, the related divestitures and the financing of the Transaction, other than statements of historical facts, are forward-looking statements. You should not place undue reliance on these forward-looking statements, which reflect the current views of the Company’s management, and are subject to numerous risks and uncertainties about the Company and are dependent on many factors, some of which are outside of the Company’s and their control. There are important factors, risks and uncertainties that could cause actual outcomes and results to be materially different, including the ability to realize synergies from the Transaction and the factors relating to the Company described above. Other unknown or unpredictable factors could cause actual results to differ materially from those in the forward-looking statements. The Company’s statements regarding financial risks are subject to uncertainty. For example, certain market and financial risk disclosures are dependent on choices about key model characteristics and assumptions and are subject to various limitations. By their nature, certain of the market or financial risk disclosures are only estimates and, as a result, actual future gains and losses could differ materially from those that have been estimated. Subject to the Company’s obligations under Belgian and U.S. law in relation to disclosure and ongoing information, the Company undertakes no obligation to update publicly or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

This document shall not constitute an offer to sell or the solicitation of an offer to buy any securities, nor shall there be any offer, solicitation or sale of securities in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to the registration or qualification under the securities laws of such jurisdiction. By attending the meeting where this presentation is made, or by reading the presentation slides, you agree to be bound by the above limitations.

Premiumization continues in China

Budweiser

- Budweiser volumes up high single digits in 3Q16
- Continued improvement in the south and east following a weak first quarter
- Major summer campaign, incorporating music and consumer engagement, activated in over 100,000 points of consumption

Super premium segment led by Corona and Stella Artois

- Development of the segment driven by Urban Centers
- Consumer trade-up trend driving segment growth ahead of average
- Segment has 9x gross profit versus core and value segments
Highlights from other markets

- In **Canada**, revenue and market share were **essentially flat**, although volumes declined by **1.3%** due to industry weakness
- In **Europe**, own beer volumes declined **2.6%** (Western Europe **+3%**) but revenue grew by **3.1%**, driven by growth of our premium brands
  - Good results from **France**, **Spain** and **Italy**
  - **UK** saw solid performances from Budweiser and Corona
  - Industry weakness in **Belgium** led to a volume decline of mid-single digits
  - **Germany** performed well, driven by Beck’s and Franziskaner
  - **Russian** volumes declined by double digits due to some market share losses for our core and value brands
- In **Latin America South**, beer volumes grew by **1.4%** due to growth in Bolivia, Chile and Paraguay, partly offset by a weak consumer environment in Argentina
- In **South Korea**, beer volumes were down by low single digits, with a **gain** in market share
Total AB InBev - Positive trends in our business

- **US**: Positive brand mix evolution and net revenue per hl growth
- **Mexico**: Continued volume growth
- **Brazil**: Growth of RGB packaging
- **China**: Growth of our premium and super premium brands
- **SABMiller integration** fully underway

Increase in Net Finance Costs driven mainly by interest expense resulting from bond issuances

3Q16 Net Finance Result driven by:
- Net cost of the pre-funding of the SABMiller purchase price, included in interest expense
- Negative MTM adjustment of 57 million USD linked to the hedging of our share-based payment programs, compared to a loss of 585 million USD in 3Q15
- Lower foreign exchange translation gains compared to 3Q15
Non-recurring net finance costs of 678 million USD, driven by FX hedging of SABMiller purchase price

- Negative mark-to-market adjustment of 594 million USD related to the portion of the FX hedging of the purchase price of the combination with SABMiller that does not qualify for hedge accounting under IFRS rules
- Negative mark-to-market adjustment of 22 million USD resulting from the derivative instruments entered into to hedge the deferred share instrument issued in a transaction related to the combination with Grupo Modelo, compared to a loss of 327 million USD in 3Q15
- Other fees of 45 million USD relate mainly to commitment fees for the 2015 committed senior acquisition facilities, which were undrawn at the end of the quarter
Normalized Effective Tax Rate (ETR)

Normalized ETR in 3Q16 favorably impacted by:
- Reporting of previously unrecognized deferred tax assets on carried forward losses and the reversal of deferred tax liabilities following a change in tax law in Argentina
- Swing between 3Q16 and 3Q15 in the mark-to-market adjustment linked to the hedging of our share-based payment programs
- FY16 guidance of 22-24% excludes the impact of the combination with SABMiller, but includes the impact of the funding of the purchase price, for which no tax deduction is expected to be reported

Capital Allocation objectives

Our **optimal capital structure** is a Net Debt/EBITDA ratio of approximately 2x.

The priorities for the use of cash are as follows:

1. **Organic growth**: Investing in the organic growth of our business

2. **Deleveraging**: Deleveraging to around the 2x level remains our commitment

3. **Selective M&A**: Non-organic, external growth is a core competency and we will continue to consider suitable opportunities when and if they arise, subject to our strict financial discipline

4. **Return of cash to shareholders**: Our goal is for dividends to be a growing flow over time in line with the non-cyclical nature of our business. Given the importance of deleveraging, dividend growth is expected to be modest
